EDUCATION

• **Bachelor Of Technology-B.Tech SKIT, JAIPUR, INDIA**   **2020-2024**
Computer Science Undergraduate.   **CGPA:8.4**
• **Coursework**: Data Structure and Algorithms, OS, Database, Machine Learning, Computer Networks.

WORK EXPERIENCE

• **Data Engineering Intern at Celebal Technologies Pvt. Ltd**   **JUNE-JULY, 2023**
As a Data Engineering Intern at Celebal Tech, I actively contributed to the development of data pipelines, data processing, and data warehousing solutions. My responsibilities included data integration, ETL (Extract, Transform, Load) processes, and collaborating with the team to enhance data-driven technologies. This experience provided valuable insights into modern data engineering practices.

• **Frontend Intern at Solar Secure Solutions**   **JULY-SEPT, 2022**
Experienced Node.js developer for a food project, adept at crafting robust server-side functionalities and seamless feature integration. Proficiently contributed to a food subscription web application and streamlined online delivery system, resulting in an enhanced user experience.

PROJECTS

• **Personal Portfolio Website** / **Html, CSS, JavaScript**
My personal portfolio website showcases a collection of my web development and design projects. It highlights my skills, achievements, and creative journey in building interactive and visually appealing websites. Visitors can explore my work and connect with me to collaborate on exciting projects.

• **E-Commerce Food Ordering Website** / **JavaScript, AJAX, CSS Animations, Bootstrap**
Educational Ecommerce Food Ordering Website: A captivating learning project featuring stunning animations, offering a simulated food ordering experience for skill enhancement and creativity.

• **React To-Do-List Web App** | **React.js, JavaScript, React Bootstrap**
React To-Do List Web App: A dynamic and user-friendly task management application built with React that allows users to add, edit, and complete tasks, providing a seamless and responsive user experience.

FUNCTIONAL SKILLS

• Problem-Solving: Identifying challenges and devising solutions to improve process.
• Team Player: Collaborative team player, fostering productivity and unity.
• Integrity: I have been in many hackathons to understand how integrity brings success.
• Open Mindedness: Open-minded individual, receptive to diverse perspectives and growth.
• Adaptability: Being open to change and adjusting positively to new situations, challenges, and environments.

TECHNICAL SKILLS

• Languages: C/C++(Proficient), Java, Python, JavaScript, TypeScript.
• MERN-Stack : Front-End and Back-End Technologies.
• Framework: Node.js, Express.js, Next.js, React, Redux, Bootstrap.
• Database: SQL (SQLite, MySQL), NoSQL (MongoDB, Firebase).
• Developer Tools: IntelliJ ,VS Code, Git (Version Control.

HONORS AND AWARDS

• **Solved 300+ problems** on platforms – **Codechef, Leetcode, Hackerrank, Interviewbit.**
